## AMERICANS ARE IN POSSESSION OF CUBA

Secretary Taft Issues Proclamation Declaring Himself Provisional Governor.

### CUBANS ARE ALL WELL SUITED

Taft will not Take Possession of the Government Palace at Havana Till Monday.

SPECIAL TO THE DAILY DISPATCH:

Havana, 10 a. m., Sept. 29.—An American provisional government assumed possession of Cuba today when Secretary of War Taft's proclamation declaring himself provisional governor of the Island was formally issued. The proclamation was published in the official gazette and thousands of printed copies of the document were distributed in Havana and elsewhere. The terms of the proclamation caused general satisfaction, especially on account of the moderate terms in which is phrased the statement plainly made that the provisional government of Cuba is undertaken only on account of the necessities of the situation and the promise is made that the provisional government will be maintained purely for the purpose of restoring peace, order and public confidence until a permanent government is established. While Governor Taft has not yet taken possession of the palace this is only because President Palma will not be ready to vacate the official residence until Monday and Mr. Taft desires to do whatever he can to suit the ex-president's convenience.

### OCCUPATION OF CUBA

UNITED STATES MARINES ARE LANDED AND FIRST CUBAN REPUBLIC IS NO MORE.

### TAFT TO ASSUME CONTROL

AMERICAN SECRETARY OF WAR WILL PROCLAIM HIMSELF GOVERNOR OF ISLAND.

Havana, Sept. 29.—American intervention in Cuba will be an accomplished fact today (Saturday). President Roosevelt's commissioners, although clothed with the fullest authority from him to take such action whenever it became obvious that the effort to secure peace by harmonizing the warring Cubans would fail, have patiently withheld their hands from thus setting aside Cuban sovereignty until the last hope had disappeared. This state of hopelessness was reached at a late hour Friday night, when the great majority of all three of the political parties refused to attend the sessions of congress called to act upon the resignations of all the members of the government and declared definitely that they would have nothing more to do with the government of Cuba. As was expected, there has been considerable public denunciation of the course pursued by the American commissioners, who, it has been alleged, have acted unfairly toward the government party, but the great mass of the residents of Cuba, Cubans and Spaniards, Americans and all other foreigners, welcome intervention as something they have longed for during the long weeks of disorder and ill-feeling. No sooner was the failure of Friday night's adjourned session of congress and the declared intention of the government officers no longer to serve reported to Secretaries Taft and Bacon than the preparations for armed intervention were put into operation. A telephone wire had been quietly laid from the American legation to the battleship Louisiana and as soon as the order was received from Secretary Taft Thirty Marines Were Landed at the captain of the port's wharf and proceeded quickly and quietly to the treasury building, where they went on guard. In the meanwhile Captain Al-

bese who visited the secretary during the recess of congress were Governor Nunez and other Liberal Nationals. They regretted that President Palma persisted in his determination to resign.

It was in a spirit of utter apathy that a joint session of the senate and house received the resignations of the president, the vice president and the members of the cabinet in the afternoon. This attitude was due in a great measure to despair that any action on the part of congress would result in making American intervention less probable. After a brief, but confused debate congress decided on the final and forlorn hope of an appeal to the president to reconsider his decision to retire from office.

Although the session had been called for 2 o'clock it was nearly 3 before the members began to arrive, and at that hour the improvised gallery in the long, bare chamber, formerly a workroom in a big tobacco factory, contained only a sprinkling of spectators. Over the president's rostrum hung the faded and tattered folds of the original lone star flag that was first raised by Carlos Céspedes after the ten years' struggle for independence. It now was a silent witness to the closing scenes of the brief life of the first Cuban republic. From the street upon which the house is situated a small crowd gazed silently at the windows.

The assembly was called to order by Senor Dolz and a roll call revealed a quorum, fourteen senators and forty-seven representatives being present. The resignation of the members of the cabinet to President Palma were then read.

Thereupon Zayas entered and made his solemn protest, declaring the president had no right to accept the resignations of the cabinet without appointing their successors.

### Palma's Resignation Read.

Replying, Representative Manduley declared that the president had acted entirely within his rights. The resignation of Mendez Capote, the vice president, was then read without comment. Following this and amid a profound silence, the resignation of the president of the republic was read. It was as follows:

"To Congress—The condition to which public order has been reduced since the initiation of armed rebellion in the province of Pinar del Rio, and the fact that there is now in operation in this capital an American commission, said to be one of peace and representing the government of Washington, and that in consequence the executive has practically lost all authority while the rebels continue in arms and in a threatening attitude and the writer on the other hand desiring sincerely and ardently that the country return to its natural state of order and tranquility, and as it is absolutely impossible to accept the conditions which the said commission proposes as the only means of terminating the rebellion, I have resolved, considering it to be patriotic and decorous, to present formally to congress and in irrevocable form my resignation from the presidency of the republic, to which office I was elected by the citizens and the vote of electoral college, May 16, last. Trusting this will be at once accepted, I extend my thanks to both legislative bodies, to whom I offer this testimony of my highest consideration."

As soon as the clerk had finished reading this document Representative Manduley was on his feet, making an impassioned address in which he declared that Palma was the only man to which the republic could look for salvation. With eloquence he urged congress to cast to the winds all considerations of partisanship and to unite in an appeal to the president to reconsider his resignation.

### Visited President Palma.

Alfredo Zayas replied to Manduley. He spoke eloquently, urging that congress had no legal right to present such an appeal to the president, whose resignation was irrevocable. A long argument followed and finally Dolz terminated the question of the right of congress to appeal to the president for reconsideration of his resignation by putting the matter to a vote. The result was 47 ayes to 13 noes. On the motion of Manduley the house then took a recess until 9 p. m. to permit the Moderates and the Liberal Nationalists to visit Palma.

The latter proceeded forthwith to the palace, where they were at once received by the president. Palma was much affected at the appearance of practically all his leading allies on such a solemn occasion. He greeted them sorrowfully and then listened intently to Senator Dolz, who eloquently requested the president to withdraw his resignation. President Palma was deeply moved and listened with tears in his eyes. His reply, however, was determined, and he declined to withdraw his resignation. Senator Dolz broke the ensuing silence by saying that the Moderates would not press the request and ended the interview by embracing President Palma. The president and several others wept freely and the delegates grasped President Palma's hand and

Up to that point the attitude of the commissioners also had been a waiting one. During the day Secretary Taft heard various kinds of propositions and counter-propositions about available and unavailable candidates for the presidency, including the extraordinary one from Senor Zayas himself that his own election as a provisional president might result in peace. None of these propositions proved anything like agreeable to all factions, and Secretary Taft, after the exchange of several cablegrams with President Roosevelt, also assumed a waiting attitude. Among

STAPLES is to have a city election and the opposing factions are headed by two former Brainerdites for mayor, H. C. Miller and Dr. Cameron, according to the Staples World. In any event our sister city will have a safe man at the helm.

THE Itasca state park commissioner, Col. C. E. Bullard, has resigned the position after three year's service. It is said that Gov. Johnson, while he has decided his successor, will not make the appointment public until after the result of the November election is announced.

A MINNEAPOLIS alderman has prepared an amendment to the primary election law which he will ask the next legislature to pass. Under it if a political party does not cast at the primary half the votes it cast at the preceding election its nominees are not to be placed on the ticket at the election.

OUT of a total of over 1,675 votes cast in the county at the recent primary election but 32 democratic votes were recorded, the First, Third and Fourth ward casting one each, the Second three, the Fifth ward presenting a clean sheet without a democratic vote to its credit. This must have been a republican year.

THE council of Wadena at its last meeting voted to fix the license fee for clothing stores that come there temporarily intending to take advantage of the fall rush of business and then move out, at \$8 per day. The Wadena people do not believe in letting outsiders come in, reap the cream of the business and then slide out without paying taxes or in any way bearing the burdens of the community.

ONE anti-saloon law which will be introduced in the legislature the coming winter will endeavor to limit the number of saloons in cities and towns to one for every 1,000 population, the license to be issued by the district courts after a hearing and the applicant to own his

own business. A bill of this nature will be the subject of a vigorous contest as it will strike at the brewers and wholesalers who now own so many of the saloons which are operated by outside parties.

THE Elk River Star News editor has come to the conclusion that if it is published under his management two years hence no political advertisements will be accepted under any conditions except possibly the bare announcement of candidacy, and future determination may even eliminate that. Now if Bro. Dare will invent some way to prevent men from electioneering and let people make up their minds and vote without advice from friend and foe he will have performed a latter day miracle.

THE Sauk Centre Herald doesn't like the primary election law, and it's editor says the law is a failure. "When a republican calls for and votes a democratic ticket or when a democrat calls for and votes a republican ticket to help out a friend he violates the law and commits a crime just as much as he would if he voted eleven times at a general election. There are fifty such criminals in Sauk Centre and more than thirty thousand in the state," is the way the Herald puts it.

Probably no other medicine ever sold in this country has aroused the same amount of discussion as Cooper's New Discovery, the preparation introduced in the leading cities during the past two years by L. T. Cooper, the young philanthropist.

Cooper claims that most stomach trouble is caused by internal parasites or tape worms and that his medicine will drive these creatures from the human system almost immediately.

Thousands of people in various cities visited by Mr. Cooper have taken this preparation for chronic stomach trouble and have been relieved of one of these creatures. In consequence his medicine has sold like wildfire wherever introduced.

Mr. O. C. Dunkman, of 819 Charlotte St., Cincinnati, Ohio, gives the following account of a case of this character. "For months I have been troubled with a drowsy listless feeling. I began taking Cooper's New Discovery and in two days was relieved of a tape worm thirty feet long. The tired feeling has left me. I have gained in weight and I consider Cooper's New Discovery a God-send. Now I know what has really been the matter with me all this time."

H. P. Dunn & Co. are the agents for the Cooper preparation in this city. They say: "We are selling Cooper's New Discovery and Quick Relief in very large quantities lately and the medicines are giving remarkable satisfaction."

HONORS ARE PAID  
REV. H. W. KNOWLES  
Farewell Reception Held at the  
First M. E. Church Fri-  
day Evening  
MANY ARE IN ATTENDANCE

Pleasant Evening Spent and High  
Tributes Paid Departing  
Pastor.

A large number of friends of Rev. H. W. Knowles gathered at the First M. E. church last night to bid a kind farewell to the family of one who for three years has labored so fearlessly in our city. It had been the desire of the Ministerial Association to pay tribute to its former efficient president by some special mark of esteem but it cheerfully joined with the church in making this occasion one, upon which all Christians and citizens might meet upon a common footing as friends won to each other by manliness and Christian principles. After an informal reception, Mr. W. Holder, by a few appropriate remarks briefly stated the object of the occasion and prayer was offered by Rev. E. A. Allin of the First Congregational church. Mr. J. H. Noble in behalf of the church then spoke of its relation to the pastor referring in warmest words to the splendid work done by Mr. Knowles not only in the home church, but in numerous missions he has opened and maintained throughout the country. Rev. H. A. Seder, of the German Evangelical church and Rev. J. F. McLeod, of the First Presbyterian church ably responded for the Ministerial Association, the former touchingly treating the subject of local church unity and the latter eloquently prophesying the union of all evangelical churches in "The United Church of America." One of the most pleasant and profitable features of the evening was an address by Judge J. H. Warner, who spoke from the standpoint of a man outside the churches, giving pointed and timely advice to all pastors. His eulogy of Mr. Knowles was frank and sincere, when he stated firmly that he was the staunchest and brainiest man the M. E. church has had since his advent to the city. The response of Mr. Knowles to the warm words of greeting was brief and apt. After stating in a few words his reasons for leaving the ministry, he expressed his appreciations of all the kindness shown and assured his friends of the fact that he would carry from Brainerd some of the sweetest memories of his life. Most enjoyable were the two solos rendered by Miss Lottie White during the program. After the program, light refreshments were served by the ladies of the church. Mr. Knowles and family are surely leaving our city with the hearty appreciation of its citizens and the united best wishes of the church which he has so loyally served.

Three shots were fired into the floor and a couple into the wainscoting. Officers McGovern and Winters arrested him and he was in municipal court this morning and paid a fine of \$5.

**ADMITS KILLING HIS WIFE.**  
Henry Sussman of Minneapolis Confesses to Murder.

Minneapolis, Sept. 29.—Henry Sussman has confessed that he killed his wife, whose dead body was found in the Glenwood hotel in this city Wednesday morning. Sussman says he and his wife had quarrelled all night after drinking heavily and that about 6:30 Wednesday morning in a fit of anger he shot and killed his wife. Sussman afterwards attempted to end his own life by gas asphyxiation, but was found and arrested before he had succeeded. Sussman says he quarrelled with his wife because she would not stand by him in a trial for forgery he was to have had at La Crosse, Wis. He also accused his wife of being unfaithful.

**Iowa Attorney Accidentally Shot.**  
Logan, Ia., Sept. 29.—C. R. Bolter, one of the best known attorneys of Western Iowa, son of Senator Bolter, accidentally shot himself while out hunting and cannot live. The charge of shot entered below the eye and came out at the top of his head.

**High School Girls Injured.**  
Ypsilanti, Mich., Sept. 29.—Miss Edith Burke, a high school student, was probably fatally injured and half a dozen girl companions were seriously hurt in a sensational runaway when fifteen high school girls were thrown from a carry-all onto a bridge.

on Formal Ballot.

**OTHER BUSINESS TRANSACTED**  
Telephone Line From Garrison  
asks Franchise to Enter  
the City.

Although the city council was in session only a short time last night business of importance was transacted. H. J. Spencer was unanimously elected city clerk. Besides this, action was taken looking to the granting of a franchise to H. F. Mann to enter the city with a telephone line from Garrison. Mr. Mann also asked for a franchise permitting him to put in a local exchange.

When the city council met pursuant to adjournment the following members were present: Aldermen Halladay, Squires, Peterson, Opsahl, Armstrong, Baker, and president Johnson. Alderman Gardner came in later.

The applications of R. F. Walters and H. J. Spencer for the position of city clerk were read and on an informal ballot Mr. Spencer received six votes and Mr. Walters one. On formal ballot Mr. Spencer received the unanimous vote of the members present and was declared elected.

An ordinance was presented conferring upon Horace F. Mann the right to enter the city with a telephone line and establish an exchange. It was on motion referred to the electric light committee with instructions to confer with Mr. Mann and report Monday night.

The matter of leasing the land near the electric light plant to Geo. A. McKinley for a period of five years was brought up and a lease which had been drawn by the city attorney was presented to the council and referred to the purchasing committee with instructions to report Monday night.

On motion the city engineer was instructed to examine the sidewalk in front of lots 5, 6 and 7, block 78, and report Monday night.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. **STRAY LEAVES**  
From a Reporter's Notebook.

The reporter had an experience on a recent trip to Deerwood that simply took the whole bake shop and a candy store thrown in for good measure. A little maid looked up into his face and asked naively, "Say, ain't you a minister?" Much as he regretted it he was compelled to deny the soft impeachment. In a newspaper experience of over 20 years he has been called about every thing irate man could lay tongue to, but this is the first time he was ever called a preacher.

Brainerd may be quiet these days, but if you think she is idle just try to get a man to do a day's work.

There has not been a load of wood on the market square this week. The reporter has watched the streets and saw just one load of wood and that was already sold.

There is reported to be a petition in circulation for the formation of a sewer district in the Fourth ward. It is not thought there will be anything more than preliminary work in the matter done this fall.

**The Breath of Life.**  
It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed at H. #### DUNNE ELECTED PRESIDENT.

Mayor of Chicago Chosen as Head of Municipal League.

Chicago, Sept. 29.—Mayor E. F. Dunne was elected president of the League of American Municipalities at the closing session of its tenth annual convention here Friday. Municipal ownership was the dominant note in the last hours of the meeting during which the members in attendance declined to go on record as favoring or opposing the principles. Mayor E. C. Timanus of Baltimore was Mayor

Dunne's nearest rival for first honors. He made the election unanimous by withdrawing his name after the first ballot. The convention adjourned to meet next year in Norfolk, Va.

## HEAVY LOSS OF LIFE

BETWEEN SEVENTY-FIVE AND A HUNDRED PEOPLE PERISH IN STORM AT MOBILE.

#### RUNS UP INTO THE MILLIONS

PROPERTY LOSS AT MOBILE IS ESTIMATED AT NEARLY FIVE MILLION DOLLARS.

Mobile, Ala., Sept. 29.—Between 75 and 100 lives lost, fully two score vessels driven ashore, wrecked in various parts of the Gulf of Mexico, damage amounting to \$4,500,000 in the city of Mobile and to the extent of millions or more at outside points, is the record of the storm that swept over Mobile on Wednesday and Wednesday night. No accurate estimate of the number of casualties can yet be made and it is doubtful if it will be known for a week or more.

Great apprehension exists regarding the situation at Gulfport and Biloxi, where it is believed that many lives have been lost.

Reports from those places are, however, meager and unsatisfactory. It is declared by the local municipal officials that no lives have been lost in the city of Mobile, but that all of the deaths have occurred in places within a radius of fifty miles of here.

The storm, which was first noticed by the weather bureau when between Jamaica and Cuba, made its appearance in the neighborhood of Mobile on Tuesday afternoon, when fitful winds began to blow and the barometer commenced to fall. The wind rose steadily, all through Wednesday and between 2 o'clock and 6 in the afternoon of that day blew with a velocity of forty-eight miles an hour.

#### Heavy Rainfall at Mobile.

All through Wednesday night it rose steadily and at 7:20 on Thursday morning was blowing from the east quarter at the rate of fifty-seven miles. A few minutes after 8 o'clock Thursday morning the wind died down. The total rainfall in Mobile during the storm was 6.86 inches. While the storm was at its height in Mobile the water from the bay was driven in in great force toward the city, the waves coming in six feet deep. Two blocks up in the heart of the city the flood was driven, filling every basement and store. At Commerce street, the first thoroughfare away from the docks, the water in the stores was five and a half feet deep. The flood did not quite reach Royal street, one square beyond Water street. During the time the storm was at its worst, it was utterly out of the question for the men along the dock to do anything to save the boats, which they could see were being slowly driven ashore.

The damage in the city of Mobile proper has been enormous. It has been contended by some that there is not a building in the city, which has not been damaged, though in some instances the amounts are a trifling matter.

#### STORM AT PENSACOLA.

Worst Hurricane in the History of the Florida City.

Pensacola, Fla., via Flomaton, Ala., Sept. 29.—The worst hurricane to visit this city in its history raged here furiously all Thursday night and Friday, with a gale still blowing. The city presents a wrecked appearance and the damage is estimated at \$5,000,000. The loss of life will be heavy among the mariners, but thus far only one body has been recovered, a man named George Morgan, a fisherman. Other bodies are reported along the shore but have not been recovered.

Commencing at 7 o'clock Thursday night the wind blew at fifty miles for three hours, then increased to sixty-five miles. From that time until 5 o'clock Friday morning it remained at about eighty and ninety miles an hour. The tides from the bay backed into the city for blocks, destroying homes and making rivers out of streets. When the gale was at its height Friday morning and women and children were running frantically about the street in the darkness, the alarm of fire was sounded, adding to the confusion. The fire started in the Pitt mill near the business district, and horses of the fire department refused to go out in the weather. With the tin roofs flying about them and wires and trees flying over them, the firemen took their hose wagon by hand and rushed down the streets to the fire and after hours of work extinguished the blaze.

#### Large Steamers Driven Ashore.

Friday afternoon the water rose until the districts of business presented an almost indescribable scene. Of the fifty or sixty big steamers and sailing vessels lying in the harbor only five or six are there now. They have been driven ashore, and along the water front is a mass of wreckage of steamers, tow boats, launches and sailing craft of all descriptions. Thirty fishing vessels in port have been destroyed or damaged and the three big fish houses with their wharves are gone. Muscogee wharf and the Commandancia and the Arragona wharves of the Louisville and Nashville railway are badly damaged. Great iron

ships of 2,000 and 3,000 tons have been driven not only ashore, but have gone through houses a block from the water front.

Every house along the water front for a distance of ten miles has been destroyed and the wonder is that the loss of life is not greater. The tracks of the Terminal railway to the navy-yard and Barrancas have all been destroyed, as have also the trestles and bridges. No communication can be had with the navyyard, but it is believed the yard has been badly damaged.

Every business house from the wharf on Palafox street to the Union depot has been unroofed, many plate glass windows broken, stocks badly damaged, and wires and poles all mixed up together. There are no electric lights, cars or telephone or telephone service. The track of the Louisville and Nashville railway on the Pensacola and Atlantic division, has been washed up for thirty miles and two engines and cars sent out to the quarantine station have been destroyed.

Acting Mayor Maura ordered every saloon closed Friday morning and fifty extra policemen have been sworn in. The homeless families are housed in all portions of the city, but many will walk the streets without food or a place to sleep until order can be brought out the chaos now existing. Added to the horror of the situation is the thieves who are breaking open trunks all along the beach, entering unoccupied houses and stealing everything in sight. Several arrests have been made, but it is impossible to protect property under such conditions.

Five sailors from a British steamer were clinging to a roof that was washed ashore Friday and three others from the same vessel had been drowned.

#### PRACTICALLY ON A WAR BASIS.

War and Navy Department Prepared for Emergency.

Washington, Sept. 29.—Both the war and navy departments were practically on a war basis Friday and advice from Cuba were anxiously awaited. The cruiser Des Moines was ordered from Havana to Cienfuegos to assist in protecting property against the insurgents. This was the only naval order of importance. The general board of the navy was in session for several hours. In the war department there were conferences, but few orders of consequence were issued, as the army is practically ready for any emergency and the hiring of transports is the only detail necessary to complete war preparations.

The first expedition would probably leave Newport News, made up of 5,500 troops gathered from posts near the Eastern seaboard, and other expeditions from points further South in case the government can arrange for the suspension of troublesome quarantine regulations. New Orleans is mentioned as the probable point from which an expedition made up of Texas troops and troops in other Southern states adjacent to Louisiana will be sent. It is the purpose of the general staff to avoid railroad travel wherever possible and send troops from the seaports nearest the posts at which they are stationed.

The departure of President Roosevelt from Oyster Bay for Provincetown caused many officers both in the army and navy to believe that the president does not expect any emergency in Cuba before Monday, when he will arrive in Washington and be in close touch with the situation.

#### Senator Clark Injured.

Butte, Mont., Sept. 29.—Word has been received from Mayneville, France, to the effect that Senator W. A. Clark was in an automobile accident and sustained a broken rib. At last accounts the patient was slowly recovering.

## FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

withdrew. There was a crowd outside, but there was no demonstration of any kind.

The night session was called for 9 o'clock, but at 10 only four members were present. As neither President Dolz or General Freyre Andrade was present to open the letter notifying the chair of the action of the Moderate caucus, the session simply dissolved. At 10:30 the lights were extinguished and the small crowd present was invited to move on, thus practically terminating the activities of the present government.

FIFTY-FIVE CENTS A BOTTLE

#### "Pleasant and Enjoyable"

It is (in the hot summer months) to spend a few weeks where the ocean breezes blow, particularly if the regular comforts and necessities of civilized life, including a really good malt beer like

## Gund's Peerless Beer

are to be had. This famous beer, brewed with sterling honesty, foams with life, sparkles with strength and the very taste of it is a pure delight. Every bottle is warranted to stand any climate, being fully aged and mature. Its aromatic tang and delicious mellow fragrance makes "Peerless" peculiarly grateful in hot weather. "Peerless" does not create thirst but quenches it, because it is brewed by the "Gund Natural Process" from the best hops and barley in the world. It satisfies and pleases, stimulates the gastric juices, aids digestion, and doctors declare that it is not only "a rippling good medicine" for those who are weak and run down, but is also of substantial food value when solid foods are inadvisable. It contains but 35% of alcohol and is thus really a temperance beverage. For 50 years it has surpassed all its competitors and represents in most literal sense "the survival of the fittest." Bottled at La Crosse only. Sold everywhere by reputable dealers. The home and family trade a specialty. Try a case delivered—a case of "Peerless"—the beer that makes you glad. Always the same—good and pure. Write or phone or call if you want for your home the best bottled beer that is to be had.
